

JPU9407 Premium Polyurethane by SmartSeal®

High Temperature, High Performance, New Technology.

Kastas sets a new standard for machined-seals by offering JPU9407 TPU as the standard material for all hydraulic applications.

The new TPU offers numerous advantages in the competition on many aspects.

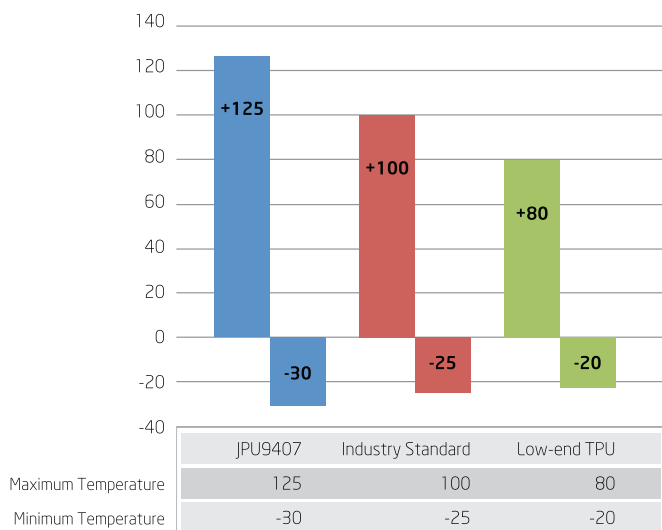

Premium Materials are standard at Kastás.

- ✓ Higher Temperature Resistance
- ✓ Excellent Hydrolysis Resistance
- ✓ Higher Tensile Strength
- ✓ Better Abrasion Resistance
- ✓ Suitable for Fire Resistant Fluids; HFA, HFB, HFC
